

Little Energizers

# AT THE BEACH

Can you spot all of the differences in the two images?  
**DISCUSS:** What does your family like to do at the beach?

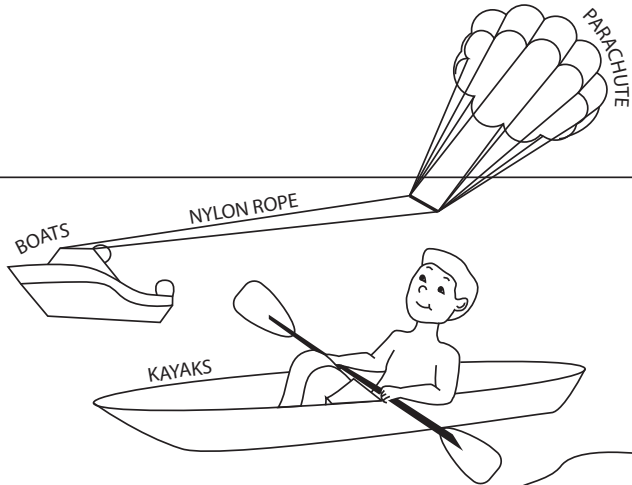

---

---

---

---

Did you know that all of these items were made from products and byproducts of oil and gas? Explore the items on the beach to discover how important oil and gas are to our daily lives!

Without oil and gas, we would not be able to manufacture products that we use every day. Mom cannot protect herself from the sun. Dad cannot go ride in his kayak. Mary cannot play with toys or wear a life jacket. Would you rather a beach with or without all of the things the family needs?
