

WIND ENERGY

Make a pinwheel that is energized by the wind!

Directions:

Step 1: Color your pinwheel

Step 2: Cut out the shape along the dotted lines

Step 3: Carefully match the corners A, B, C, and D to the star in the middle. ASK AN ADULT to place a pin through the middle. Try to pin the four letters in order. Pin the wheel on the front of a wooden dowel or pencil eraser.

Step 4: Experiment with blowing on the pinwheel from different direction.
